$2 \times 7 = \underline{\quad} \text{ so } \mathbf{14 \div 7 = 2}$

$12 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$10 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$7 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$7 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$4 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$4 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$2 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$5 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$9 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$12 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$3 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$3 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$8 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$11 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$11 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$1 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$6 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$9 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$10 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$6 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$1 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$8 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

$5 \times 7 = \underline{\quad} \text{ so } \underline{\quad}$

- Complete the counting in 7s number track...

0	7	14										
---	---	----	--	--	--	--	--	--	--	--	--	--

84	77											
----	----	--	--	--	--	--	--	--	--	--	--	--

- Draw a line through each 'counting in 7s' number maze...

0	6	12	75	82
7	13	62	69	76
14	20	56	63	70
21	42	49	55	77
28	35	41	48	84

0	7	15	22	30
21	14	22	29	37
28	34	69	78	83
35	55	63	70	77
42	49	56	79	84

84	63	56	34	27
77	70	49	28	21
85	50	42	35	14
92	55	48	13	7
73	47	15	6	0

84	77	70	63	69
79	40	61	56	60
43	35	42	49	57
34	28	20	15	6
30	21	14	7	0

- Write the other 'counting in 7s' number in each pair.

	42	21			77	49			70
--	----	----	--	--	----	----	--	--	----

77			49	28			63	14	
----	--	--	----	----	--	--	----	----	--

I can count in 7s up to 84.

Colour in all of the multiples of 7. E.G. 14 (2 x 7)
