

St. Mary's Catholic Primary School

Subject: **Science**

Topic: Animals Including Humans

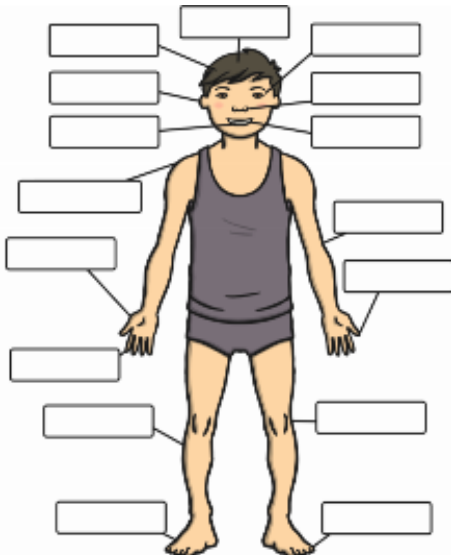

Year: 1

What should I already know?

- Where my head, shoulders, knees, toes, eyes, ears, mouth and nose are.
- The five senses and the associated body parts.
- The names of some of the animal classifications.

What am I going to learn?

- A foot, hand, toes, fingers, knees, legs, hair, arms, elbows and teeth are part of the human body.
- Eyes are to see with.
- Hands are to touch with.
- Noses are to smell with.
- Tongues are to taste with.
- Ears are to listen with.
- Sharks and gold fishes are fishes.
- Frogs and toads are amphibians.
- Lizards and snakes are reptiles.
- Owls and penguins are birds.
- Humans and cats are mammals.
- A lion is a carnivore.
- A giraffe is an herbivore.
- A bear is an omnivore.

Vocabulary

Animals: Animals are living things.

Amphibian: Amphibians live on land and in water. They lay their eggs in water.

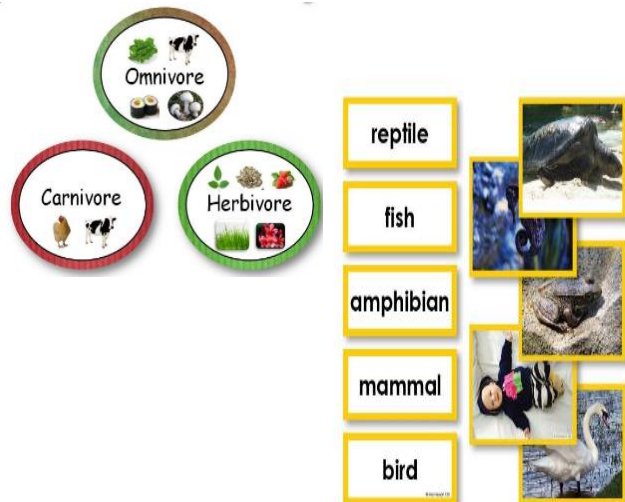

Body: The main part of a person.

Birds: Birds have a beak, wings, feathers and 2 legs. They lay eggs.

Fish: Fish live in water. They have fins instead of legs and gills instead of lungs.

Mammal: Mammals usually have hair or fur. The mothers feed their babies milk.

Reptile: Reptiles live in water and on land. They have scales.
