

## Catch-Up Funding Plan

### Amount of funding:

Pupils across the country have experienced unprecedented disruption to their education as a result of coronavirus (COVID-19).

Schools have received an additional amount of money to provide catch-up support for those pupils who require it. At St Mary's we will identify where additional support may be required by carrying out rigorous and robust assessments of our children's emotional resilience, attitude and readiness to learn, physical wellbeing and academic achievement. We will then modify the curriculum to address gaps in knowledge and target individual children who require additional support. Particular focus will be on disadvantaged, SEND and vulnerable children.

Funding is allocated on a per pupil basis. St Mary's has received £8,450.

More information can be found here: <https://www.gov.uk/government/publications/catch-up-premium-coronavirus-covid-19/catch-up-premium>

### Barriers to learning and achievement

<b>Academic barriers</b>
Reading – fluency, vocabulary knowledge and comprehension strategies as many of our families have limited access to books during Lockdown and children have not been read to by parents.
Writing – good quality writing (including handwriting, fluency and grammar), spelling and knowledge of a range of genres, writing structures and stories.
Maths – mathematical basic skills, confidence and fluency. Challenges of interpreting mathematical problems and applications of skill.
<b>Additional barriers - including external barriers such as access to home learning, attendance, etc.</b>
Unsupported learning habits- Some homes may have had difficulty accessing a laptop, had a lack of resources, e.g. materials, paper/pencils. The children may not have had adequate support for learning or difficulties in finding space and a place to complete work.
Attendance – some children's attendance is low which will impact upon learning
Some pupils have family circumstances or social and emotional challenges resulting in low confidence and self-esteem which in turn impacts on their learning.

This table outlines our intended spend:

Action	Implementation	Cost	Monitoring
Staff training – Microsoft Teams	<ul style="list-style-type: none"> <li>• INSET on Microsoft Teams by IT team</li> <li>• Lessons with each class on how to use Teams in preparation for lockdowns</li> <li>• Assemblies in Autumn and Spring to be held via Teams</li> </ul>	£500 – training	<p>Access to Microsoft Teams by pupils was monitored through morning and afternoon registers during Autumn and Spring term lockdowns.</p> <p>Live sessions led by teachers were monitored by SLT throughout lockdown.</p>
October half term school – Maths and English interventions for targeted Y6 pupils	<ul style="list-style-type: none"> <li>• Daily Maths, Reading and Writing sessions for selected children</li> <li>• PE/dance sessions to promote well-being</li> </ul>	<p>£1,110 – teacher costs</p> <p>£250 – PE/dance</p>	Autumn term assessments – 85% of pupils n will make 2 or more steps progress.
